

Mr Richard Hall - Finance Committee

I'm Richard Hall, I have one daughter currently attending Padnell Junior and one who left Padnell for secondary last year. I also grew up in Padnell Avenue so have experience as a local resident. I recently joined the governance team in November 2023 and really enjoy learning how the school goes about managing the day to day of our children. It's been extremely enlightening and informative, certainly more goes on than I ever realised. I sit on the full governing committee as well as the finance committee. I work in the energy performance sector as the Head of Projects for a global business. I've been project managing for the past 11 years, before which I spent 20 years in the Royal Navy as a Chief Marine Engineer. Educated at Padnell back in the 80's, I completed my education at Portsmouth University with a degree in systems engineering and a masters in construction project management. I'm looking forward to using my experience and knowledge to help support team Padnell wherever it can be utilised.
