

Mrs F Cruz - Curriculum Committee

I am Faraley Cruz, I have one daughter currently in Padnell Juniors and one that has left for secondary school in the recent years, which Padnell Juniors has been great foundation for her. I have been appointed as governor since in the autumn 2023. I have completed my Masters in Psychology and currently work for the local authority in children services. Prior to this role I have worked at Padnell Juniors as an HLTA and feel that I understand the children, staff and culture really well. This experience has been invaluable to me and I hope to support the school in the path of progression for our young learners. I have experience in education, training and development for the past 12 years and have worked with children from early years till adulthood. I find being a governor is very insightful and it is rewarding working with a school and team that envisions success for our children.
